

Agenda 2030- The Sustainable Development Goals

General Introduction of the Sustainable Development Goals.

Welcome to the 2030-SDGs Agenda Project initiative, a space that intends to strengthen the relevant actors' efforts and the development of a network that works together to address the 17 SDGs included in the 2030 Agenda. The SDGs are a tool to tackle the great challenges that humanity faces, particularly, the climate emergency, and build towards a more equal, just, democratic and respectful society based on human rights and environmental harmony.

Introduction of the Space HERE,

A detailed breakdown of all the 17 SDGs and the relevant news and actions pertaining to the attainment of the Sustainable Development Goals that the UdL is actively involved in.
